

MASTER IN LAW AND MANAGEMENT

The NOVA Master in Law and Management trains jurists of excellence, offers solid competences in the main areas of consulting and transactional advocacy, and confers ability to lead, the major business and financial undertakings.

In addition to the core competencies of Corporate Management, Accounting and Corporate Finance, Corporate Economics, Corporate Governance, Mergers & Acquisitions and Negotiation, the program offers skills in the areas of Taxation, Banking and Financial Markets and Technologies. Teaching is in the English language.

The Master in Law and Management is offered simultaneously by NOVA SBE and NOVA School of Law, two schools recognized for the applied nature of their teaching, their international vocation and by the strong connection to the world of business, consulting and law.

GOALS

To deepen the knowledge of Law in the areas most relevant to the needs of corporate clients.

Acquire knowledge of Business Management, namely at the level of Organizations, Marketing, Strategy, Human Resources Management and Finance.

Acquire, improve and develop personal skills in the areas of leadership, team management, communication and negotiation.

Understand and interpret better companies financial information, being able to make the connection between legal concepts, their accounting representation and underlying financial reality.

WHO IS IT FOR

Young lawyers who seek to specialize as business lawyers, Law graduates and graduates from related areas who wish to pursue management or start a business career, lawyers engaged with involvement in business issues.
